

InSTEM 2023

Guidelines for Oral Presentation

Once the participants receive the confirmation email on abstract acceptance form the organizers, the oral presenters could prepare their presentation in PowerPoint slide.

Below are the guidelines given to prepare the slide presentation:

Duration: 10 mins for presentation and 5 mins for Q & A.

Original research article:

The contents of oral presentation should include the following sections:

- Background/Introduction (Problem statement)
- Objectives & Hypothesis
- Methodology
- Results & Discussion, Conclusions & Recommendations
- References

Format:

There is **no specific template** for presentations, and participants can adopt any of their preferences. However, the slides of presentation must contain the following: title, authors, affiliation, and the conference logo.

Presentation slides are recommended to have sufficiently large fonts and clearly legible. Usage of any video, sound effects or animations should be minimized and must be tested prior to presentation time scheduled.

Overall presentation such as slide creativity, presenter attire, confidence, voice and command of audience attention should be emphasized.

Judging:

- Presenters must adhere to the time limit and all criteria as detailed in the rubric as it will be strictly assessed by the judges.
